BIRD SAFE ARCHITECTURE FUNDRAISER

The Audubon Aquarium of the Americas, New Orleans

13th May 2011 7:00PM -10:00PM Reception ... HELP PROMOTE BIRD SAFE ARCHITECTURE!!!

As we all know, birds are an integral part of the environment; without birds life ceases. Biodiversity is a crucial component of architectural sustainability in need of attention. Birds disperse seeds, pollinate soils, eliminate pests and fertilize soils. Yet over a billion birds are killed each year in the US due to preventable collisions with buildings. Through your help in raising awareness, we can "SAVE A BILLION BIRDS". This evening has been made possible by generous support from the UK Rooflight Company, Arnold Glass and Mechoshade Systems. Join us for an evening of good music, good food and the fantastic surrounds of the Audubon Aquarium of the Americas! For Dinner and Reception: <http://saveabillionbirds.eventbrite.com/>
